**COLLEGE OF VETERINARY MEDICINE**

FERPA Consent Form For Use of Photograph on  
College of Veterinary Medicine Class Composite

---

I give permission to the College of Veterinary Medicine to use my photograph in both a printed and web site class composite.

The composite will be used to assist the college community in properly identifying members of each class of the doctor of veterinary medicine professional program.

The web site version of the composite will be reviewed each semester to make any necessary updates (name changes, roster additions or deletions, etc.). A printed version will only be made once, during new student orientation at the beginning of the first year of studies. The CVM will limit access to CVM and university personnel (faculty, staff, and students) with approved unity identification. The web site will also be WRAP protected.
