

Do you have a Soft-Coated Wheaten Terrier? Or a dog with protein-losing enteropathy?

NC State College of Veterinary

Medicine is looking for a variety of patients to enroll in our Canine Gastrointestinal Permeability study evaluating the efficacy of using a oral sugar solution to diagnosis PLE

We are looking for:

- Soft coated wheaten terriers
- Any breed diagnosed with PLE (Protein losing enteropathy)
- Any breed considered healthy with no chronic GI issues

Study Benefits

- Alicam video capsule endoscopy
- Free exam, bloodwork, fecal testing, and urinalysis
- \$200 visa gift card after completion of the study
(totaling two visits)
