

STUDY OPPORTUNITY

Would your dog like to play fun cognitive games and get lots of yummy treats for science?

The Thinking Pets Research Program is interested in learning more about dogs receiving TPLO surgery.

OBJECTIVES

There are many factors that may influence a dog's behavior.

NC State University College of Veterinary Medicine Thinking Pets Research Program is now enrolling dogs who are scheduled for TPLO surgery and their owners for a new research study exploring dog and human factors that may influence dog behavior.

Take our
interest survey
to see if your
dog qualifies:

BENEFITS

Dogs who complete the study will receive:

- FREE Post-surgical (8 week recheck) sedation and radiographs
- FREE Dog bandana
- FREE Dog toy
- And a puppy report card about their day at the university!

PARTICIPATION INCLUDES:

- Two total visits to the NC State Veterinary College
 - A short 45-minute or less Meet & Greet appointment
 - If eligible, a single day study visit in which dogs can be dropped off for their day at the university!
- Dogs will participate in multiple learning games
- Owners will be asked to fill out questionnaires about their dog and participate in an interactive behavior test at pick up
