

DOES YOUR DOG HAVE
OSTEOARTHRITIS?
ARE THEY AT LEAST 5 YRS?
44-88 POUNDS?

Help us
explore
how the GI
System affects
Joint Health in
dogs with
arthritis.

We aim to improve
pain management in
animals and humans.
Your support makes a
tremendous difference.
Each dog helps us better
understand canine health
and improve treatments
for the future.

Benefits:

Free comprehensive exams, lab work, and full-body radiographs! All findings and diagnoses sent to your primary veterinarian

Fear-Free certified team looking after your dog
